Civil Cases
Rankin vs. Burnell
The first case this term was Gardner H. Rankin vs. Leland G. Burnell, Alton C. Wheeler appeared for Mr. Rankin and Wilfred G. Conary for Mr. Burnell. The action was to recover salary amounting to \$1400.00 plus \$24.31 expenses for services in a surveying engagement in 1921. Defense claimed a verbal agreement whereby Mr. Rankin was to receive \$5.00 per day. Plaintiff said there was no agreement, whatsoever, but charged the "going price" of \$10 per day. After fifty minutes deliberation, the jury returned a verdict for the full amount plus interest, total \$174.62.

Parker vs. Briggs
In this suit Ralph T. Parker of Rumford brought action against L. L. Briggs of South Paris for alleged negligence in driving an automobile causing a collision. The accident occurred near the "overhead bridge" in Bethel village on September 17, 1922. Mr. Parker with his wife and three guests were returning to Rumford from the White Mountains. On approaching this bridge over the Grand Trunk, and while endeavoring to avoid a car coming over the bridge toward him, driven by the defendant, was forced to drive over a bank to avoid a collision. Mr. Parker's car was considerably damaged and the occupants miraculously escaped serious injuries. The machine was an open Buick five passenger touring car costing \$1,525. It was sold after the accident for \$750. Repairs cost \$234.19 and the permanent damage estimated at \$100. The two sums were the amount sued for.

Both sides failed to agree on happenings directly before the accident. Mr. Briggs claimed he kept to the right but Mr. Parker kept to the left while approaching from the West Bethel road and failed to circle around to make the turn for Church street, otherwise Rumford road.
Mr. Parker's testimony contradicted this story which claims Mr. Briggs was on the wrong side. Both sides tried to prove their contentions by wheel marks and other evidence. A verdict of \$187.16 was returned for the plaintiff. George Hutchins for Parker and Alton C. Wheeler and H. H. Hastings for Briggs.

Gaudet vs. Kilbreth
This was an auto case involving an action for damages amounting to \$600 brought by Philip Gaudet of Rumford against Frank L. Kilbreth of North Turner. The plaintiff claimed the defendant driving a Ford in a careless and negligent manner, caused this plaintiff Gaudet, who was operating a Maxwell auto, to run into a tree by the roadside.

According to the testimony, Kilbreth was driving to his home from Livermore on the State highway on the afternoon of Sept. 3, 1923, being trailed by Gaudet. Reaching the driveway leading to his home, Kilbreth signalled with his left hand and slowed down to make the turn on the left side. Swinging his car in, with no knowledge of a car behind (as claimed by the defendant) he heard a horn and a crash almost simultaneously. Looking back he discovered the plaintiff's car against a tree on the left side of the road.

Gaudet was the only witness for his side of the case and told about trailing the defendant four miles. As the Ford slowed down, he noticed the driver's signal and after giving the horn, attempted to pass on the left. When the cars were nearly opposite, Mr. Kilbreth swung to the left. Gaudet seeing a collision eminent, steered out of the road and collided with a tree. He testified to extensive damages to the front end of his car, but had made no financial appraisal of the parts. The car was in a Rumford garage.

The defense claimed every precaution had been taken before making the turn and that Gaudet was himself to blame for other wreck. Mrs. Gertrude Marston, daughter of Mr. Kilbreth, was near the house at the time and testified she observed her father's hand out for a signal some six or eight rods before reaching the driveway. She stated the Gaudet car was running at good speed. Mrs. Marston also repeated conversation at the wreck as did Virgil Leavitt, a storekeeper at North Turner, and on the spot soon after the accident.

The jury were out some thirty minutes and returned a verdict for the defendant. Attorneys were for the plaintiff, Albert Bellevue; for the defendant, Frank Morey.

Libby vs. Bell
The civil action was to decide the paternity of a child born to Lottie B. Libby, the complainant, on June 2, 1922, at South Paris. Guy R. Bell, alias Harry Bell, of Norway, age 40, was charged by the father in the declaration. The respondents listed of the charge brought part of which was not denied by the respondent, was to the effect that she entered the family in 1919 to assist in the care of Mrs. Bell, who had returned from a hospital. Members of the family included Mr. and Mrs. Bell and a son about fifteen years old.

She remained in this capacity several months, later boarded there while employed elsewhere. Aside from a few months in another town she had been in the family until Mrs. Bell went on a visit to her home in Kentucky, in April 1922, returning early in September of the same year.
The respondent admitted Miss Libby's presence in his home but emphatically denied improper relations at any time. Albert J. Stearns represented the complainant and Wilfred G. Conary was counsel for the respondent.
The case was thoroughly argued by the attorneys and after Justice Cornish's clear cut charge, the jury retired. In fifteen minutes the jury returned a verdict of guilty.

Peas Retracted
William H. Stone, Norway, retracted to guilty on two counts. The liquor nuisance charge was not pressed by County Attorney, Hugh Hastings. The charge of keeping and depositing was filed. For manufacturing intoxicating liquor the respondent received the minimum sentence, two months in the county jail and \$100 fine with costs. In defaulting two months additional are given. Albert J. Stearns spoke eloquently for Mr. Stone.
William W. Bird, Albany, retracted not guilty of keeping and depositing intoxicating liquors. Sentenced to four months at hard labor in the county jail and \$300 plus costs. Additional three months in failure to pay the fine. Alton C. Wheeler represented the respondent.

John Grausis, Rumford, retracted to guilty of manufacturing intoxicating liquors. Aretas E. Stearns stated the unfortunate conditions existing in the respondent's family, where a frail wife with several children would be left without funds should he receive a jail sentence. Justice Cornish realized this condition, but said there are too many similar cases going through our courts. The respondents should realize the possibilities in leaving a dependent "mother and grandmother" before commencing the illicit business. Respondent was fined \$300 and costs with four months in the county jail at hard labor, with three months additional if fine is defaulted.

Leander S. Billings passed his 55th milestone on October 10. He is still active in lumber business and may be found nearly every working day at his mill or about the mill yard. Younger men take up the brunt of the labor, but he manages the business and keeps tabs on affairs as in the past fifty years. Mr. Billings keeps informed on the world's affairs, and is intensely interested in the social and commercial welfare of South Paris. He supports financially any movement in the community for the betterment of the place and its people and the full extent of his charities are known only to himself. May he live to enjoy many more years.

BACKACHE IS DISCOURAGING

But Not So Bad If You Know How to Reach the Cause.

Nothing more discouraging than a constant backache. Lame when you awaken, pains pierce you when you bend or lift. It's hard to work or to rest. Backache often indicates bad kidneys. Norway people recommend Doan's Kidney Pills. Read this case:

Mrs. G. D. Frost, 6 Tucker St., says: "Doan's Kidney Pills helped me wonderfully and I take pleasure in recommending them. My back gave me trouble and there seemed to be a deep seated pain across the center of my back. My kidneys didn't act regularly and in other ways showed signs of disorder. As Doan's Kidney Pills had been used in the family with good results, I decided to try them and sent to Noyes Drug Store and got a box. After using them, the trouble left me entirely."

The New Remington Game Loads

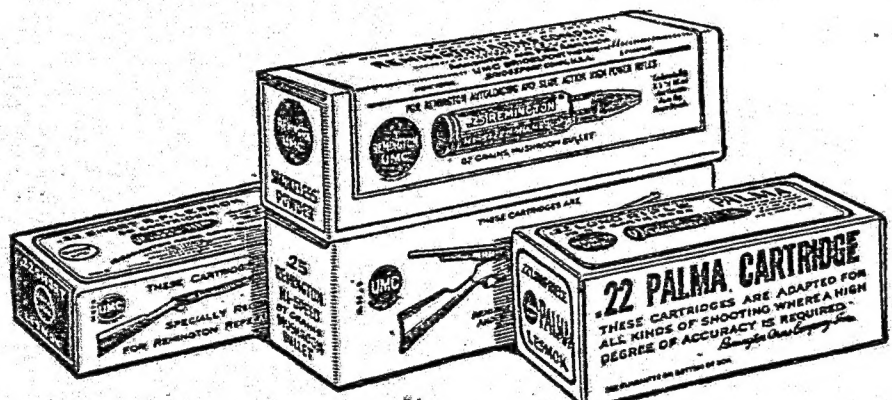

Be sure to see them—the biggest advance ever made in loaded shot shells. Produced as the result of important Remington discoveries about powder. There is a Remington Game Load for every kind of game in this locality. Each one is loaded to give *safe and uniform* velocity, pattern and penetration—the *right shooting quality* for that particular kind of game.

The load pictured above is the *Remington Heavy Duck Load*. It comes in 12-gauge with either No. 4, 5 or 6 Shot and in 20-gauge (the hard hitting 2 3/4" shell) in No. 6, 7 or 7 1/2 Shot. The velocity, pattern and penetration are *right* for big ducks, and for *long range* shooting when they are flying high. *Sure and safe!*

Remington Game Loads are loaded in the famous Nitro Club *Wetproof* Shells. Here is the complete list:

OXFORD POMONA
Oxford Pomona met with Bear Mt. Grange, South Waterford, October 2. The hall was prettily decorated with asters and other fall flowers. As the Worthy Master was unavoidably detained on the road, Past Master L. E. McIntire opened the meeting, Clinton Kilgore being gate-keeper pro tem and Mrs. Edith McIntire, Pomona. The roll call of officers found all present but three, of which two of these arrived later, the Worthy Master and Pomona. Business session resumed. Roll call of granges found members present as follows: Paris, 6; Norway, 9; Bethel, 9; Bear Mt., 34; Franklin, 8; Pleasant Valley, 1; Alder River, 1; Round Mt., 1; West Paris, 5; Watford, 8; Crooked River, 6; Lakeside, 9; Sweden, 1; Bear River, 6; Committee on credentials report 4 candidates in waiting. On account of the lateness of the hour, the degree was out short. A communication was read from Upton Grange regarding a date for a special meeting of Pomona. Voted to meet there October 13, each member carrying a basket lunch. Dinner was served at 12:30. This was certainly a very fine dinner, as almost everything one could wish for was on the table. After dinner the meeting was called to order by the Worthy Master who placed

exercises in the hands of the Lecturer, as follows: tableau, "Aster Time"; song by the chorus; vocal solo by Sister Pillsbury; recitation by Charlotte Longley, after which she presented a large bouquet of flowers to the guest of the day, Senator Fernald; address by Senator Fernald, who eulogized Oxford County by explaining that we did not fully appreciate the great men whom Oxford County had sent out. He also spoke on the decreasing of the war debt. Thought our children should be educated for the life work they choose, and if a blacksmith or a lawyer, see to it that they make a good one. Original poem by Ethel Munroe; Bro. Bartlett gave a reading. No Pomona being complete without hearing from Bro. McIntire, he was called upon and gave as usual some very good thoughts especially touching upon the countries, who are preparing for war and urging peace to be taught throughout our whole country. He then called upon Bro. Whitman of Norway to read his resolutions he had drawn up on World Wide Peace. These were adopted unanimously by the Pomona. Tableau, "The Son That Never Sets"; address by Rev. Mr. Markley on the work of the Civil League, putting in a plea to have better home life for the young people. Mock wedding; reading by Sister Holden; pi-

ano duet by Sisters Sanderson and Pillsbury; reading, "Since Father Has a Radio" (by request), Charlotte Longley. This concluded the program for the afternoon. Closed in form.

MOVEMENT FOR GOVERNMENT BUILT HIGHWAYS

A vast movement gathering strength every day is for the National Government to construct and maintain trunk lines, State road commissioners and Federal Aid to cooperate in consolidating highways leading from points in their domain toward the main artery.

The extent of the Nations interest in good roads in general, and any governmental scheme which will provide real highways, in particular, is well shown in the number of organizations of State, interstate, and national character, which are actively engaged in promoting the cause of good roads.

There are no less than twenty-five organizations, each devoting itself to pressing for the establishment or the completion of a transcontinental highway; that is, one which crosses several States, in distinction to those purely State highways, which are wholly within a State.

Twenty-two great associations are working on twenty-two interstate highways, entirely distinct from the twenty-three State Highway Associations which are actively laboring for better roads of all kinds within their respective States.

Besides these, there are eleven great national organizations either wholly devoted to roads or including roads as one of their major activities.

Subsidiary to these are hundreds of smaller road organizations, working with these associations, but chiefly concerned over some local stretch of road.

It is to be noted that when, as is inevitable, the National Government begins to build a national highways system, a great many of these great organizations can write "done" after their charter explanation of their purposes.

At the rate we are at present building Federal aid roads it will take two hundred years to improve our road system. All of us will be dead before that movement is well started. The answer is to change the movement, to work for, educate for, vote for, national highways, built by and maintained by the National Government; give this nation two hundred thousand miles of such roads, (which could with ease be built in a period of five years), and the rest of the roads will be improved in even less time by States, counties, and towns, which will refuse to be kept from the benefits of such a national road system, when all that they need to do to enjoy it, is to connect with it.

(To be continued.)

After a man is fifty he pays fewer fiddler's bills and more doctor bills.

Millettville and Crockett Ridge
Charles Bixby, Everett Bixby and Albert Bixby and Mr. and Mrs. Albert Bixby, Jr. all of Lovell, Mass., arrived at Green Elms on Thursday last about dusk in their Hudson Super-six, to spend Sunday. Charles, Everett and Albert Sr. were sons of Vesta Jackson, a sister of the late Abner Jackson, and when the oldest was only nine years old she died and the boys came back to live with their uncles in Norway, Millettville, where they stayed and worked until they enlisted in the Civil War, Charles having to force his age a year to be eligible. Of late years Charles and Albert have been located with their families in Lovell, Mass. Everett having spent years in South America has settled down in Lowell, too. The three brothers, all over 70, enjoyed tramping over the old farms, locating walls they had helped to build or trees under which they had laid and cried over boyish troubles, and rocks about North Pond "where we caught the big fish" or "where we learned to dive and swim." The days were perfect fall days and they enjoyed looking over the big orchards and watching Sol and Rust Jackson harvest their apples. Many snap shots were taken and calls were made on old friends or relatives about town and Paris. They started Sunday to drive to Ashland, N. H., to call on John M. Jackson, Abner's oldest son, and expected to reach Lovell late that night after an enjoyable visit to their childhood home.

Mrs. Rust Jackson as been visiting relatives in New York City for two weeks, having been called there by the death of her father's oldest relative, her cousin for whom she was named. Mrs. Emily Abbott is keeping house while she is away.

She just missed her mother, Mrs. Rust Jackson, by a day and was quite disappointed as planned owing to the Millettville "cheese" having company thereby keeping six from the gathering. But several articles for the Grange fair were finished. A treat of baked sweet apples, a prime dainty at the season, was the reward. The next meeting will be in two weeks at Green Elms with Mrs. Sol Jackson.

Mrs. Hattie Buck and Doris Emerson called, Sunday, on Mrs. Abbott at the Jackson farm. Other callers were Mr. and Mrs. Lindsey Morse and son and Mr. and Mrs. Smith and daughter. Miss Doris Emerson visited the Millettville school, Monday, to give help as model school teacher to Miss Greenleaf, who, as a new teacher, welcomed her gladly. Miss Emerson took lunch at Green Elms with Mrs. Sol Jackson and came to the village with her to visit school there at the Upper Primary in the afternoon.

EVERYBODY-AT-CHURCH SUNDAY

October 21, 1923

All the Churches of Norway unite in urging your attendance this day at the church of your own choice. The path of privilege and of duty leads you to the church door.

Next to the Home it is the institution most essential to the stability and progress of human society.

Much as men may need other things, they need God more. Help others to unite in the observance of this day. Be a booster and not merely a silent partner.

Each church offers an attractive program of Worship, and a Message that you need.

When the day is done we trust that through the fellowship of worship and service you may have caught a vision of a happier, more useful citizenship and be resolved anew to do your faithful best for God and for His Kingdom, through the Church.

In the churches' stead, we greet you.

Cruising With Midshipmen
Bradlee Willis of Norway Lake, electmate on the U. S. S. Florida in an interesting letter to the Advertiser describes a two months cruise to foreign lands. Some two hundred "Midships" from Annapolis were aboard the ship for drills and practical navy experience.

According to the letter, the ship sailed from Annapolis June 8 and seventeen days later cast anchor at Copenhagen, Denmark, where a demonstration was given in their honor. The two "watches" had turns at shore leave and coal was taken. Everything was wide open, but few intoxicated persons were observed. A small percentage of the rank and file speak English, but the language is a compulsory study in the high schools, therefore spoken fluently by the young set.

The people were hospitable and appeared anxious to make their short visit pleasant. Prices for tobacco, jewelry and many other things were lower. Many articles from the United States cost less than at home. Taxi fares were very low, probably because everywhere rode bicycles regardless of wealth, station or age.

Next stop was at Grenock, Scotland, and Mate Bradlee made a side trip to Edeburg, Glasgow and other points.

After a period of sight-seeing, the ship continued and anchored at Lisbon, Portugal on July 26, for four days. Gibraltar was the next stop for coal and shore leave. A shopping trip in the small town disclosed one fact the shop keepers are some "hagglers" over prices, with extravagant habits of setting a high mark on everything, according to the writer, if a customer paid over one-half the price asked, he was stuck good and proper.

On August 4 the ship headed for the United States and arrived at Hampton Roads two weeks later for coal and range practice. The trip covered about 4,000 miles and proved an interesting experience for all.

FATHER FOUND TV VERY

Was Constipated, Thin, No Stomach

A hardy woodsman and enthusiastic fisherman of Maine, has a very interesting record to report. He writes: "As a boy, thirty-seven years ago, I began to take Dr. True's Elixir, the True Family Laxative and Worm Expeller. Once after six months had gone by, I came out of the woods and found my two-year-old boy very sick. He was thin, had no appetite, had swollen lips, pains in stomach, was suffering from constipation for months.

"I had not been in the house an hour when an elderly lady—a good neighbor—came in and told my wife to get a bottle of Dr. True's Elixir, saying she had seen numbers of similar cases which it had relieved.

"My boy was given a half dozen doses of Dr. True's Elixir, when he passed a lot of worms and right away began to show improvement; he began soon to eat with a relish, play around and look healthy. He did not have to take a full bottle, and in later years, whenever he got off his feet, a few doses would straighten him out quick.

"When I got constipated, a couple of teaspoons of Dr. True's Elixir, the True Family Laxative and Worm Expeller, fixed me O. K.

"My son is grown up now and has a family of six children, and he has practiced Dr. True's Elixir for years."

Comfort

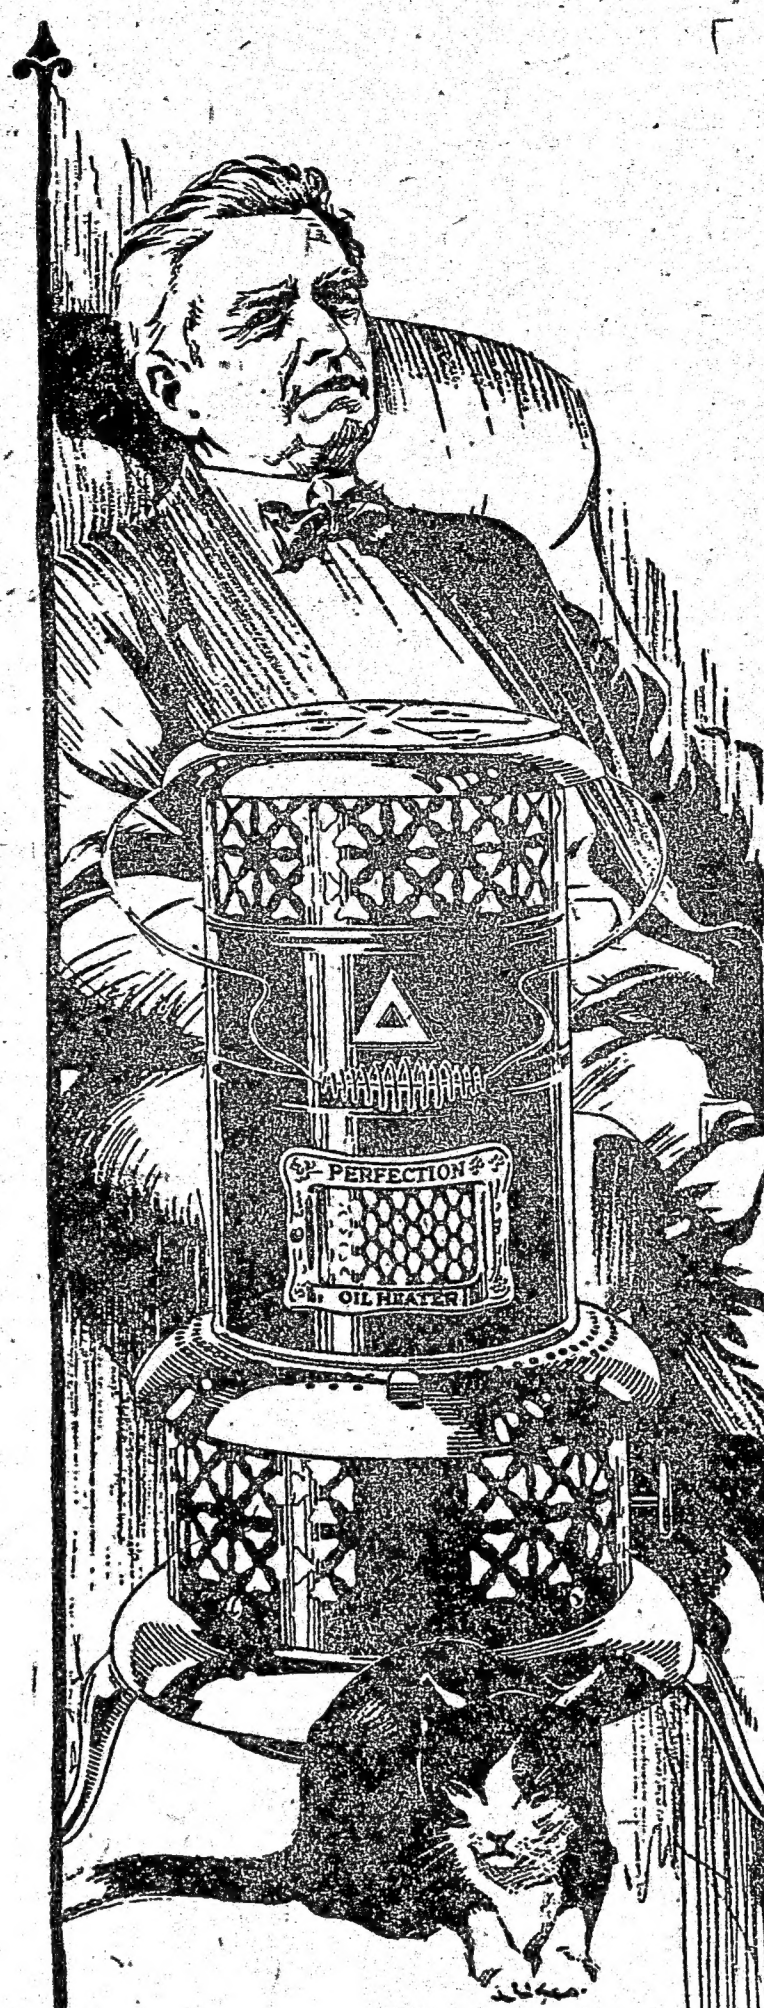

OLD folks, like little ones, require a constant, easily tempered heat—you might almost say a flexible heat is absolutely necessary for their health and comfort.

Yet making a bigger fire in the furnace means over-heating the rest of the house. Even when the particular room is hot enough for Grandpa and Grandma, you can't very conveniently turn the furnace lower, and reduce the heat elsewhere. But a Perfection Oil Heater furnishes portable, yet flexible warmth. It will quickly and economically heat the particular room that you want, and young as well as old will enjoy its genial and comfortable presence.

A hardy woodsman and enthusiastic fisherman of Maine, has a very interesting record to report. He writes: "As a boy, thirty-seven years ago, I began to use Dr. True's Elixir, the True Family Laxative and Worm Expeller. Once after six months hauling logs, I came out of the woods and found my two-year-old boy very sick. He was thin, had no appetite, had swollen lips, pains in stomach, was suffering from constipation for months.

"I had not been in the house an hour when an elderly lady—a good neighbor—came in and told my wife to get a bottle of Dr. True's Elixir, saying she had seen numbers of similar cases which it had relieved.

"My son is grown up now and has a family of six children, and he has prac-

tically raised his family on Dr. True's Elixir. The children go out and get hold of something not good for them. It's hard to watch all the children, and so when they eat something they shouldn't eat, and one whom everyone loved, especially to the relatives, much sympathy is extended to the relatives, especially to the husband. They attended Fryeburg Academy at the same time and the friendship formed at that time ripened to ties so strong that although separated several years (Miss Thompson filling a position in Washington and Lewis was overseas during the war) they finally came together and married and their married life though brief was ideal.

Symptoms of worms: constipation, offensive breath, swollen upper lip, de-raanged stomach, occasional pains in the bowels, pale face, eyes heavy and dull, short, dry cough, grinding of the teeth, red points on the tongue, starting during sleep, sleep fever.

Nearly every child and grown-up needs a laxative sometime. The fond parents safeguard the health of their children, as well as their own, by keeping their bowels in condition. The herbs used in Dr. True's Elixir, are imported and of strict purity quality. No harmful drugs. Keep the bowels regular by using Dr. True's Elixir, the True Family Laxative and Worm Expeller. 40c, 60c, \$1.20.

Why Dry Batteries
are Noisy

In the case of dry batteries, these disturbances are the result of one or both of two conditions: 1—Internal electro-chemical action, and 2—Unseen wearing away of connections within the battery, due to corrosion.

Internal action is constantly going on in even the best dry batteries, due to the very nature of the construction of this type of battery. Each cell, as you know, consists of a carbon electrode surrounded by what is known as the "mix" and around which is wrapped a thin sheet of zinc to form the outside wall of the cell and also to act as the other necessary electrode.

This internal action becomes more noticeable as the cell increases in age and the voltage drops.

Traveling instantly from batteries to phones, this constant disturbance is reproduced in the form of frying or hissing noises. Yours may be a \$50 set or a \$500 set; it may be thoroughly efficient in every other particular, but if you are depending upon dry cells in your plate circuit, you cannot escape the unpleasant effects of their internal action.

Increased Driving Comfort Provided in Buick "Fours"

In adjusting the position of the driving seat, in lowering the steering column and in bringing the shift lever and emergency brake within the easiest possible reach of the driver's hand, Buick has provided additional comfort and satisfaction in the new four-cylinder models. Ease of handling is also an outstanding feature of the new Buick "four". In heavy traffic the abundant power of the famous valve-in-head engine and the quickness with which the car responds to every control enable it to glide in and out of traffic with the utmost facility, while Buick four-wheel brakes assure perfect braking and safety under all conditions.
